

BOPPW050

This is a 2 mil white, cavitated, non heat-sealable, two side treated BOPP. Compatible print methods include, but are not limited, to flexo, offset, screen, thermal transfer, and UV inkjet. This face sheet has extra tear resistance. Other benefits include high opacity for two sided printing, high scuff resistance, and excellent weather resistance.

BOPPW050 2 mil White Cavitated Polypropylene Film
