

# CC175

This extremely bright white polyester film with a chem treat on the face is ideal for the face stock of a premium label. The chem treatment on the face allows for flexo, thermal transfer, and UV inkjet printing. The adhesive is a general purpose perm. The 40# liner is ideal for high speed die cutting.

**PETWP176 700 gauge White PET film treated both sides**

**TC50601 A general purpose permanent acrylic adhesive with good initial tack, high shear and ultimate adhesion.**

**SL5055 42# SCK Liner - Medium Release (15g - 50g release 2" strip Tesa Tape 300 ipm 180°)**
