

CCX049

This extremely bright white polyester film with a matte laser coating on the face is ideal for a film label application. The rich white look and coating allows you to print high color. You can also use this face stock for a premium film label. It is laser compatible, heat resistant, and water resistant. It can be printed laser, thermal transfer, off set, and flexo. This adhesive has a lower coat weight allowing it to be used as a mid-tack removable/perm.
