

CCXS175

7mil (175 micron) Bright White PET with digital matte laser top coat 1 side, primer coat on other side. This bright white polyester coated one side, is ideal for high quality digital print. The rich white look and coating allows you to digital print one side and flexo or adhesive coat on the backside. This sheet can also be printed on a UV forms press and die cut to make all plastic ID cards, hang tags, or key fobs. It is laser compatible, heat resistant, and water resistant. 2.0 mils to 10.0 mils available upon request. Our matte laser X coating is scratch resistant and very durable.

TC50123 Premium Matte Laser Top Coat

PETWP176 700 gauge White PET film treated both sides
