

# CFB037WA

CFB037WA Coupon film ideal for making IRC labels (instant redeemable coupons) or clean release cards. The universal star pattern allows for custom size IRC labels to be made easily. ID cards should be tested when heavy processing is intended. You can laminate the face stock of your choice. The PET is printable in a mirror image so you can make a card or coupon printed on both sides. The PET layers allow for a wider window of peel values for universal applications. This product is targeted with a medium to easy release.
