

# LFPSCQ051

Two mil clear pet with a top coat for flexo printing, mid-tack removable adhesive, and a super lay flat liner. Make clear tag labels that can be used for window decals, temporary product labels, and other applications where you want a film label to be able to be removed clean from virtually any surface. This product is heat resistant, water resistant and holds up well in cold temps with excellent clarity. The back of the PET has an enhanced primer to make sure the adhesive stays with the face stock in even the most difficult shelf labeling applications.

- PETP052 PET 2 mil clear print treated 2 sides
- SC Super Clear Gloss Digital Top Coat
- TC50614 Removable Adhesive Mid-Tack/ Blood Bag Compliant
