

LFSC049

This is a 2.0 mil clear PET with a gloss top coat for Indigo and laser printing. Ideal for high speed production. The gloss top coat is compatible with high color imaging. The adhesive is a laser safe mid tack removable. This is ideal for shelf markers.. The liner is a 92# super lay flat PK liner. The liner will not curl even in cooler environments. The face stock is very durable, water resistant, and tear resistant.
