

LP100

LP100 is a 4 mil clear PET with a chem treatment for flexo and thermal transfer printing. It is a clear polyester film with an extra gloss appearance. LP100 is laser compatible but cannot accept toner. This film can be used to laminate label face stocks for extra durability. The adhesive is a general permanent with excellent wet out properties. The liner is a 3.4 mil clay coated sheet with lay flat properties. The back of the liner can be flexo printed.
