

# LWX074

This is a 3 mil bright white polyester film with a digital matte laser coating on the face. The adhesive is a laser safe mid-tack removable. This product can be used on clean/dry surfaces such as metal shelving and floor graphics. The liner is a 4.6 mil super lay flat laser sheet. This product is laser compatible, heat resistant, and water resistant. The digital top coat works well with IGEN, Nexpress, and other color lasers including LED printers. This product is designed to produce floor graphics.
