

OLSCF025

Super Clear PET for integral cards or labels on press. Laminate has premium special high gloss top coating for laser, flexo, and thermal transfer printing. This topcoat is used where ultimate clarity and gloss is a must and will still accept variable printing. Designed for color laser printers and HP Indigo. This is our most popular face laminate when high color print is used. Wet out is very good. This laminate makes your print look great. The film liner add extra strength as well as allows for a better lamination to the printed piece.
