

PBMT050

This is a piggyback label stock with a standard perm adhesive for window decal or other durable label applications. The face stock is a clear matte laser that can be both press printed and laser printed. The decal will be water resistant and very durable. This material can be die cut and applied on a label applicator or applied on a patch applicator with no die cutting. The standard perm will be somewhat removable from smooth surfaces like glass and shelving but permanent to corrugated or other paper surfaces.
