

QDCM037

QDCM037 is a double coated tape for the production of integral labels with removable adhesive. The #50614 mid-tack adhesive is ultra-removable from smooth surfaces like glass and plastics. The clear liner has a matte laser topcoat and is ideal for window decal and high color direct mail applications, especially where the back print needs to be visible. The liner can also be kiss cut to allow variable print on the liner to be included in the window decal when removed from the form.

- SL055 42# SCK Liner - Easy Release
