

# RDC037

This is a double coated carrier. One side has perm adhesive and the other removable. One application is to produce an integral label with ultra removable adhesive. The adhesive is ultra removable from smooth surfaces like glass, plastics, and refrigerators. This product can be used as a magnet replacement. You can apply the perm side to a pre-printed area that looks like a magnet and then die cut to remove your removable adhesive magnet replacement. Compatible with stainless steel refrigerators and any number of other common home appliances.

- SL055 42# SCK Liner - Easy Release
