

# TS065

Two liner transfer tape (Transtick®) used for the making of an integral label or a label on press. The base liner is a 2.5 mil (65 micron) laser liner. The base liner is laser and press printable. The 2.5 mil laser liner will also be less likely to fracture in production if that becomes an issue. The lay-flat liner can also increase run speeds on the applicator. The adhesive is a general perm with high shear.

**SL1055 42# SCK Liner - Very Easy Release**

**TC50601 #601 General Purpose Perm Adhesive**

**SL10040A 2.5 Mil Clay Coated Tight Release Laser Liner**
