

# TSE115

Two liner transfer tape (Transtick®) used for the making of an integral label or a label on press. The base liner is a 4.6 mil laser liner. The base liner is laser and press printable. The 4.6 mil laser liner will also be less likely to fracture in production if that becomes an issue. The lay-flat liner can also increase run speeds on the applicator. The adhesive is rated for outdoor use and/or BS5609 compliant applications. Applications also include tough labeling applications such as glass test tubes.

- SL100115 4.6 mil Clay Coated Liner- Tight Release
- TC50610 Perm Outdoor Drum Label Adhesive
- SL1055 42# SCK Liner - Very Easy Release
