

TSU065

Two liner transfer tape (Transtick®) used for the making of an integral label or a label on press. The base liner is a 2.5 mil (65 micron) laser liner. The base liner is laser and press printable. The 2.5 mil laser liner will also be less likely to fracture in production if that becomes an issue. The lay-flat liner can also increase run speeds on the applicator. The adhesive is rated for outdoor use and/or BS5609 & UL #969 compliant applications. Performs well on low energy surfaces.

SL01055 42# SCK Liner Premium Easy Release
TC50626 Permanent adhesive for high and low energy surfaces
SL10040A 2.5 Mil Clay Coated Tight Release Laser Liner
