

#605 Adhesive Specs

Description

#605 is a water-based pressure sensitive adhesive that utilizes microsphere technology. This ultra-removable, repositionable product offers good quick stick to a wide variety of substrates.

Features

#605 coated labels can be attached and re-attached repeatedly without loss of its initial tack and without residual adhesive left behind. Labels can be easily removed from a variety of substrates without marking or damaging the surface. Even surfaces like newspaper will not be damaged when removing advertisement notes.

Popular Product Uses

- Protective masking tapes and paper
- Wall borders and graphics
- Postal and retail labels
- Other instances where a clean removable or repositionable behavior is needed.

FDA Compliance

- indirect food contact - 21 CFR175.105
- 21CFR 176.170
- 21CFR 176.180

Typical Performance Properties

180° Peel to Stainless Steel (lb./in.) (30 min)	.2
PSTC-16, Looptack (lb./in.)	.3

Typical Adhesive Properties

Minimum Application Temperature	+32F
Service Temperature Range	20F - 250F
