

Durable Labels and Tags

STRATA-TAC has solutions for your most demanding durable and outdoor applications.

We offer both clear and white films that range from 0.5 MIL to 10 MIL.

POLYPROPYLENE:

- WHITE 2.0, 2.3, 3.0, 4.0, 6.0 & 8.0 MIL
- CLEAR .75 & 2.0 MIL

POLYESTER:

- WHITE 2.0, 3.0, 4.0, 5.0, 6.0, 7.0 & 10.0 MIL
- CLEAR 0.5, 1.0, 1.5, 2.0, 3.0, 4.0, 5.0, 7.0 & 10.0 MIL

VINYL:

- WHITE 3.2 MIL
- CLEAR 3.0 MIL

We offer the adhesives for the most difficult application:

- Permanent adhesives for applications like marine labels, as well as adhesives qualified for drum labels
- Freezer grade adhesives for cold temp applications and cold environments
- Removable adhesives approved for direct food contact and blood bag labeling
- Ultra removable "cling" adhesive with removability from glass for projects like oil change decals

Some of our most popular products and applications:

- Horticulture Labels
- Drum Labels
- Boat and Jet-Ski Labels
- Chemical Resistant Product Labels
- Lockout Safety Tags
- And More....

Safety Labels - [LPPWIGE088](#) is a 3.5 MIL white BOPP with a gloss digital topcoat that is ideal for inkjet printing, using compatible print engines such as Memjet. The white BOPP is water resistant and durable.

Drum Labeling - [LVWIME079](#) is a 3.2 MIL vinyl with a digital top coat that is printable with all aqueous based inkjet printers, laser printers and HP Indigo. It is durable, water resistant, tear resistant and has a BS5609 certified adhesive.

Outdoor Durable - [CCXE176](#) is a 7.0 MIL matte laser PET with a durable indoor/outdoor adhesive and a 3.4 MIL clay coated liner, designed for the production of durable laser labels. The adhesive allows for the use of the label in almost any environment.
