

# IRC or Card with Lift Edge "E" Pattern

2up Cards on an 7 1/2" slit roll

- Strata-Tac's "E" Pattern is a 7.5" slit roll with adhesive patterned to run 2 cards horizontally.
- The yellow area indicates adhesive. The shaded channels show zones with low bond adhesive that prevent tunneling.
- Cards will have lift edges on both vertical sides, created by the low bond adhesive zones.
- The red dotted lines represent slitting lanes.

- Ideal for use in the production of clean release cards and IRC Coupon Labels.
- The pattern with lift edges allows for the ID cards to be affixed while not pre-dispensing, even when heavy processing is intended.
- We can provide a tag stock or PET to complete the product construction.
- Custom patterns and two liner construction are also available.

*Illustration is a representation of the product we make but is not to scale. Adhesive pattern may deviate +/- 1/16".*

**Manufacturing Self-Adhesive and Top Coated Constructions for over 20 years.**
