- CLEAR 3.0 MIL.

We coat with adhesives, both Permanent and Removable, that qualify as Skin Safe and compliant for Blood Bag, Direct and Indirect food contact.

Visit us at www.stratatac.com and download the Strata-Tac Adhesive Guide to learn more about our variety of adhesives.

We have materials that meet the requirements for use on blood bags, wristbands, medical tapes, and similar applications.

- Test tubes, both glass and plastic
- Hospital wrist bands
- Antimicrobial protective films
- Blood bag labels
- Direct and indirect food labels

Our line of **polyester films** are great for wristbands. We apply our matte laser topcoat for toner compatibility. Available in a wide variety of gauges. Topcoat can be added to one or both sides.

Or use our **TSDH065**, a two liner transfer tape, to make labels on press. The waste liner is 40# an easy release silicone to ensure you can release the waste liner from the base liner without adhesive confusion. The adhesive is rated for tough applications such as glass test tubes and is water-resistant.
