

SAFETY DATA SHEET

Issue Date: July 22, 2020

Section 1 – Identification

PRODUCT IDENTIFICATION: OLNCV100

Manufacturer Name: Strata-Tac, Inc.
3980 Swenson Ave.
St. Charles, IL 60174
Telephone: (800)-884-9388

Product Use Description: Film Laminate

Section 2 – Hazard(s) Identification

GHS Classification: None

GHS Label Elements

Signal Word: N/A

Hazard Statement: There are no significant health hazards associated with exposure to this product. All ingredients are physically bound in the matrix during the manufacturing process.

Section 3 – Composition/Information on Ingredients

Hazardous Components: OSHA Hazard Communication Standard requirements for Safety Data Sheets do not apply to the product described in this information sheet. This product is excluded as an article.

Section 4 – First Aid Measures

Inhalation: These products are a solid and are not likely to be hazardous by inhalation. However, if exposed to fumes from overheating or combustion, remove to fresh air. Call a physician if necessary.

Eye Contact: Not likely to cause a hazard in normal industrial use. However, if dust from product enters eye, flush the affected eye with water for at least 20 minutes.

Skin Contact: The product is not likely to be hazardous by skin contact. If irritation develops wash affected area with soap and water. Get medical attention if irritation persists.

Ingestion: Not a hazard in normal industrial use. If ingested, consult a physician.

Section 5 – Fire-Fighting Measures

Suitable Extinguishing Media: Foam, dry chemical

Unsuitable Extinguishing Media: Do not use water as it may disperse the burning film without extinguishing the material.

Fire Fighting Procedure: Keep personnel removed and upwind of fire. Firefighters should be equipped with a self-contained breathing apparatus to protect against potentially toxic and irritating fumes.

Hazardous Decomposition : Hazardous gases/vapors produced in a fire are carbon dioxide, carbon monoxide, organic acids, aldehydes, alcohols and unburned hydrocarbons.

Unusual Fire/Explosion Hazards: This produced can be combusted by remaining in contact with flame. If flame source is stationary these products will shrink away and self-extinguish. If these products remain in contact with a flame they can continue to burn slowly, dropping flaming liquid which can spread the fire. During processing, film may pick up a strong static charge. Avoid discharge into dust or solvent-laden air as a flash fire or explosion may result.

Section 6 – Accidental Release Measures

Review fire/explosion hazards before proceeding with clean-up. Use appropriate personal protective equipment during clean-up.

Section 7 – Handling and Storage

Handling: Rolls of film may telescope. Use caution when handling.

Do not breathe vapors or fumes that may be evolved during processing. Avoid skin contact with sharp edges of the film. Plastic packaging materials can build up a static charge. Polyester film rolls packaged with shrink-wrap or other plastic overwrap should be opened or unwrapped only in non-process areas where ignition sources such as solvents are not in use or in storage.

Storage Conditions: Store away from heat and sources of ignition. Do not store in direct sunlight.

Recommended Storage Temperature: 70°F +/- 20°F
35 to 60% Relative Humidity

Section 8 – Exposure Controls/Personal Protection

Exposure Limits: No known ACGIH, TLV, OSHA, PEL or supplier-recommended occupational exposure limit.

Industrial Hygiene/Ventilation Measures: Provide general room exhaust ventilation. No respiratory protection necessary except where overheating can occur during processing. Use self-contained breathing apparatus, adequate ventilation and/or engineering controls in high temperature processing to prevent exposure to vapors.

Eye Protection: Wear safety glasses when handling/processing this product.

Skin Protection: Special protective clothing is not needed for normal use.

Respiratory Protection: No personal respiratory protective equipment needed for normal use. In case of hazardous vapors/fumes use self-contained breathing apparatus.

Section 9 – Physical and Chemical Properties

Physical State:	Solid
Appearance:	Roll
Color:	Various
Odor:	Odorless
Odor Threshold:	No Data Available
pH:	No Data Available
Melting Point:	No Data Available
Boiling Point:	No Data Available
Flash Point:	No Data Available
Evaporation Rate:	No Data Available
Flammability:	No Data Available
Lower Explosion Limit:	No Data Available
Upper Explosion Limit:	No Data Available
Vapor Pressure:	No Data Available
Vapor Density:	No Data Available
Density:	No Data Available
Relative Vapor Density:	No Data Available
Specific Gravity:	No Data Available
Solubility in Water:	Insoluble
Partition Coefficient n-octanol/water:	No Data Available
Auto Ignition Temperature:	No Data Available
Decomposition Temperature:	No Data Available
Viscosity:	No Data Available

Section 10 – Stability and Reactivity

Hazardous Reactions: Polymerization does not occur.

Stability: Item is stable under normal ambient temperature and conditions.

Conditions to Avoid: Heat, flame and sparks

Hazardous Decomposition Products: Carbon dioxide, carbon monoxide, organic acids, aldehydes, alcohols and unburned hydrocarbons.

Section 11 – Toxicological Information

Likely Routes of Exposure: Skin Contact

Health Effects and Symptoms: None

Toxicity Data: No test data found for this product

Section 12 – Ecological Information

Additional Ecological Information: We have no quantitative data concerning the ecological effects of this product.

Section 13 – Disposal Considerations

Waste Disposal Method: Waste disposal should be in accordance with all existing federal, state and local environmental regulations.

Section 14 – Transportation Information

Land Transport (DOT): Not dangerous goods

Sea Transport (IMDG): Non-regulated

Section 15 – Regulatory Information

TSCA Inventory Status: Product is an article as defined and is not subject to TSCA inventory requirements.

Section 16 – Other Information

HMIS Ratings: Health: 0 Flammability: 1 Reactivity: 0

The information provided in the Material Safety Data Sheet pertains to the product as supplied by Strata-Tac. The descriptions, data and information contained herein are presented in good faith and believed to be accurate. It is provided for your guidance only and is not considered a warranty or quality specification. The above information relates only to the specific product(s) designated herein and may not be valid for such product(s) are then used in combination with any other materials, processes or if the product is altered. This safety data sheet is subject to revision as additional knowledge and experiences are gained.
