

Laser Printable Custom Floor Graphics

Strata-Tac now offers a variety of ways you can create custom floor graphics. Help students, customers and employees find the way.

- Show customers the way to savings and special offers.
- Create a safer retail shopping environment with floor spacing graphics.
- Manage retail traffic flow to reduce customer congestion.
- Use in manufacturing facilities to mark safe work distances or to reinforce safety procedures.

A long lasting floor graphics with a slip resistant overlamine.

Floor graphic film - **LWX074** is a 3.0 mil bright white polyester with a digital matte laser coating on the face.

- LWX074 is laser compatible, heat and water resistant. The digital top coat works well with iGEN, Nexpress, and other color lasers including LED printers.
- The adhesive is a laser safe mid-tack removable. This product can be used on clean/dry surfaces such as metal shelving and floors.
- The liner is a 4.6 mil lay flat laser sheet.

Slip Resistant Overlamine - **OLTXV094** is 3.75 mil clear polyolefin that is UL-410 certified. It has a standard permanent adhesive and comes on a 1.2 mil clear PET liner. Apply over LWX074 after printing to create a long-lasting floor graphic.

New Laser Printable Slip Resistant Vinyl

You can laser print directly on this new vinyl.

- No overlamine needed.
- Available in White and Clear.
- Permanent or removable adhesive.
- Meets NFSI B101.3 standard for slip resistance.
